

Home

This is the home of the Magnolia Internationalization space.

We started a translation effort, to bring the Magnolia translations up to speed, particularly with the bunch of new modules that have been added to the Magnolia ecosystem in the recent years.

We're using Google Docs spreadsheets - one document per language, one sheet per module. Details at: <http://documentation.magnolia-cms.com/contribute/i18n.html>

Of course, if you have already translated (parts of) Magnolia using the sources, or if you just feel more comfortable that way, patches are also welcome !

Translators

So far, a few users have volunteered for translations:

Sara Carvalho	Brazilian Portuguese
Rick Chiu	Chinese
Alan Ke Sun	Chinese
Zoran Balkic	Croatian
Zdenek Skodik	Czech
Marcel Van Den Brink	Dutch
Hermann Kurz	German
Christian Sommer	German
Maurizio Müller	Italian

Get in touch if you want to help! (even if your language is already "taken", the more the merrier!)
