- Viewing digital assets in a folder structure
- Working with assets and renditions
- Controlling our brand
- Using digital assets in a paragraph
- Setup and configure Magnolia
 - Configure main settings
- Feedback and Test results

Legend for implementation status reported by a wiki page:

	A red star means that this work has to be revisited and reworked entirely.
	A yellow star indicates that the concept or scenario are considered solid, have been largely agreed upon and its basics are ready to be implemented, but actually require a thorough review. Mockups may have to be updated, some descriptions adapted with changes made elsewhere, but what is written is ok in general.
	A green star means what's on the page is ready to get implemented.
