

# Community Wiki

This wiki is a place to share tips, code and ideas with other members of the Magnolia community and you are very welcome to contribute.

- *Copyright.* Please read and understand [Wiki License and Copyright](#) before you contribute.
- Search first, add later: If you are about to add a page, please check first if the content already exists. Improve existing content and keep related content together.
- Use existing categories: Add pages under the relevant parent page listed in the left navigation. Please do not add pages here at the root level.

To comment, or edit content, log in using your [JIRA](#) account information. [Go here to register](#) for a community account.

## Mailing Lists

### Mailing Lists

Join one of our mailing list to keep up with important announcements, releases and more.
