

Copy of Twin-column

`TwinColSelectFieldDefinition` renders two boxes side by side. Available items are in the left box and selected items in the right box. To select an item, move it from left to right. This control is useful for selecting large sets of items such as group and role memberships. You can find an example in the [Security app](#).

Class: `info.magnolia.ui.form.field.definition.TwinColSelectFieldDefinition`

Here is an example of a custom `GroupManagementFieldDefinition` field which extends `TwinColSelectFieldDefinition`. This field is used to assign groups to a user.

? Unknown Attachment

Node name	Value
groups	
class	<code>info.magnolia.security.app.dialog.field.GroupManagementFieldDefinition</code>
label	Assign user to groups
leftColumnCaption	Other available groups
rightColumnCaption	User is a member of

You can use all [common field properties](#).
