

WebDAV notes

↩

Your Rating:  Results:  11 rates

```
curl -i -u superuser:superuser -X PROPFIND http://localhost:8080/webdav/resources
```

```
curl -i -u superuser:superuser -X PROPFIND http://localhost:8080/webdav/resources/sample.js
```

collection: directories and such - have subnodes.

DavLocatorFactory: responsible for mapping between request URIs and repository paths

we probably want to disable version support etc;
