

# Unconference 2018

The 2018 unconference happened in Basel at the Magnolia Developer Days 2018.

This year we introduced facilitators in each session, in part to ensure that notes were recorded and where possible, conclusions were made and noted.

Check out the [Developer Days 2018 Recap Blog post](#), including Lightning Talk videos!

## Unconference Session Topics

[Integration patterns, Magnolia Monolith vs. Microservices](#)

[Caching a global site w/ personalization](#) , detecting IPs, URL strategies...
